```
They have the right what fuckin' right?
To say I must fight in their fuckin' wars
They declare it!
Why should I fight in their fuckin' wars?
When they don't consult my views of war?
They declare it!
Why should I fight in their fuckin' wars?
Why should I do their killing and be killed?
They declare it!
It's nothing to them if I were dead or alive
All they want is death or glory
They declare it!
They! They! They declare it!
War! War! War!
```
