

White Flag for Peace

Disco Ensemble

Justice for all
Champagne on ice and helmets for everyone
You'll take the fall
Slip on confetti and break your skull in half
And no-one will ever be free

None of this was ever yours
Raise a White Flag for Peace and black for disorder
But still you give it everything you've got
Raise a White Flag for Peace and black for disorder

This is a club
Though someone has falsely renamed it society
Are you next up
To get fucked over by things we cannot see
And no-one will ever be free

None of this was ever yours
Raise a White Flag For Peace and black for disorder
But still you give it everything you've got
Raise a White Flag for Peace and black for disorder

And none of this was ever yours
Raise a White Flag for Peace and black for disorder
But still you give it everything you've got
Raise a White Flag for Peace and black for disorder
