

# Getting Me Nowhere

Disharmonic Orchestra

How do I feel? I can't explain  
I never knew what's going on  
In my mind there's a voice  
That's telling me the meaning of life

The heat makes me sick I gotta stay  
I check the pain that can't be found  
Theres comes the moment that never lasts  
I fasten my seatbelts but I don't care

I am the one to blame  
I'm like an endless pain  
But the truth beyond it says  
Better pull yuurself apart  
To point the way outside  
I can't stand it no more

Into the mirror I stand and stare  
And like I figure there's no one there

The sound of daylight  
It's getting me nowhere  
The smell of dreamtime  
Has got a different flair
