## So Blind

Dishwalla

You feel nervous So much you can't swallow Now you sit here worthless Watch her sing, watch her shaking up my life

You're so blind You're so blind (I know that you know)

She makes me feel Like a man in a spaceship going down Where no one has gone before Far away, so far away from here

You're so blind You're so blind (I know that you know) You're so blind (I know that you know)

Tonight could be all that is pure For a night on the Lincoln bedroom floor Too much is enough for us to burn Shut up and listen to your life

You're so blind Listen to your life (You're so blind) I know that you know

Listen to your life You're so blind (I know that you know) You're so blind You're so blind (I know that you know)
