

Clench Your Teeth

Dismantled

You wanna rip the system
You wanna break through
But you're so disconnected
Who gives a shit about you?
All your problems
Are not just going away
But your're not changing
So keep on grinding your shit

You've got so much indifference
There's more every day
And there's just so much building
You wanna rip right through your lungs
But nothing's clinging
And all your choices are up
So just drown in your mess
And shut the fuck up

Clench your teeth
Until they crack, and swallow
