

# Death Conquers All

Dismember

Aiming at history the trigger is pulled  
Manmade plague spreading worldwide  
Millions force-fed with the reces of the infested  
Eardrums pierced with polished glass  
Scartissued beast that still roar  
Hatred and profanity underground  
A funeral for mental health  
Remedy for the true at heart

Your witchcraft denies them  
The pleasure of being set free  
Your witchcraft arouse them  
Salvation unable to see

Sheep in wolf clothes searing ignorant minds  
Betrayal bloodbath for their endless crimes  
Prophets, lying, untrue worship the silent queen  
Their hypocrisy indecent and obscene

Leprosy madmen kings of the old  
The faithful outcasts fewer but stronger  
Blades sharpened shinning metal of death  
Punish the traitors those once loyal
