

## Stagnation

### Disorder

Call yourself an individual? I can't ever see. You're just like a boring student trying to preach to me. You talk of helping others, put out your friendly hand. Just get the nuclear armaments out of this land. Oh yes we all are rebels, idealist anarchists. We say we'll have a revolution when we all get pissed So use your stagnant minds, it might not take long to find. Conformity never works, you are so pathetic and blind. Walk into a record shop to buy yourself some anarchy. 45 revolutions, which one is victory?
