

# Never Wrong

## Disturbed

You're never ever wrong  
No, you're never wrong, never  
No, you're never ever wrong  
No, you're never wrong, never wrong

You're never ever wrong  
No, you're never wrong, never  
No, you're never ever wrong  
No, you're never wrong, never wrong

You're never ever wrong  
Always something more to say  
You're never wrong  
Will you never mind, let me fight  
You're never wrong  
If there's something more to say  
You're never wrong  
It's going to end this time  
You're never wrong  
If you can never be contained  
You're never wrong  
Will you never mind, let me fight  
You're never wrong  
Don't even bother to explain  
You're never wrong  
You'll never win this time

Feel the anger coming  
Fell my patience running  
Well it's plain to see  
That you have lost your damn mind

How could you let it end up this way  
Is there really nothing more you can say  
I'm not taking another fucking dose of your denial today  
I'm not willing to deal with someone,  
Who insists that they can never be wrong  
So just keep on talking to the wall because I'm walking away

You're never ever wrong and you never will believe  
That you were wrong, you're just never mind, let me fight  
You're never wrong, were you really that deceived  
The illusion is to end this time  
Well you were wrong, I know its difficult to see  
That you were wrong, in your little mind every time  
Yeah you were wrong and now you'd better believe  
That it is coming to an end this time

Feel the anger coming  
Fell the patience running  
And it's easy to see you've made me lose my damn mind

How could you let it end up this way  
Is there really nothing more you can say  
I'm not taking another fucking dose of your denial today  
I'm not willing to deal with someone,  
Who insists that they can never be wrong

So just keep on talking to the wall because I'm walking away

If shut your mouth, then we just might make it  
You wanna fight me, be careful what your wishing for  
So say it again, push it again  
There is no coming back this time

Shut your mouth, cause I just cant take it  
I'm ready to fight, is it all that you were hoping for  
Don't say it again, do it again  
There'll be no coming back this time

How could you let it end up this way  
Is there really nothing more you can say  
I'm not taking another fucking dose of your denial today  
I'm not willing to deal with someone  
Who insists that they can never be wrong  
So just keep on talking to the wall  
Because I'm walking away  
How could you let it end up this way  
Is there really nothing more you can say  
I'm not taking another fucking dose of your denial today  
I'm not willing to deal with someone  
Who insists that they can never be wrong  
So just keep on talking to the wall  
Because I'm walking away

You're never ever wrong  
No you're never wrong, never wrong  
You're never ever wrong  
No you're never wrong, never wrong
