

Stolen Bliss

Diva Destruction

In this land where we both should stay
And in this land where it's all ok, I'll wait
Here for you, so hidden for you, our
Stolen bliss, stolen bliss, in this land
Where you want to play, and in this land
Where I want to stay, I'll wait here for you
Still here all these years, our stolen bliss
Stolen bliss, in this pain that brings me life
And in this game that you make me play
But it's the game that you love so much
I'll wait here for you, your secret taboo
In this pain where you make me love
And in this game where we know we'll pay
But it's this game that you love so much
You brought me heaven and left me this hell
You brought me heaven and left me this hell
I'll wait here for you, I'll wait here for you
