

Good 'n Plenty

Divine

Listen honey can't you see
What I'm the one that's gonna show you love
And make you feel so much pleasure
Don't waste the feeling

Just go with the flow
When your body's next to mine
You're giving up that sexy vibe
I want to take you to another level baby

And when you get that special feeling
All you gotta do is call me up oh
I'll give you good and plenty of it
When you're feeling down and low

All you gotta do is let me know, yeah
I'll give you good and plenty of my love
Hey, hey sugar the time has come for you to
Let down your guard and accept all of my

Precious treasures
I'll share my secrets and open my heart to you
It can only get sweeter baby
I'm gonna take the time

To make your love all mine
Come let me take you to another level baby
And when you get that special feeling
All you gotta do is call me up, oh

I'll give you good and plenty of it
When you're feeling down and low
All you gotta do is let me know, yeah
I'll give you good and plenty

When Your body's next to mine
You're giving up that sexy vibe
I'm gonna take you to another level baby, oh
