

# Brodee Bro

Dizzy Wright

Alright, alright, alright  
Alright, alright, alright

Ay yo, props stay all in my folks that's holding me down  
I got a real realization that I'm on this stage when I was in the crowd  
But livin' now and putting it down  
Remember them two little niggas from running your town  
Who nigga? Come on Dizzy? Nigga what?  
Killing all opponents, nigga now she on it  
Headed to can I hit it in the morning  
See that's where I fucked up  
Cause now she hitting up all in my homies  
Like have y'all seen this nigga?  
Daily dilemmas that a nigga deal with  
From the girl that I chose to chill with  
And responded to no text for, at all  
Better hit that next on that superman and flex on em'  
But I don't wanna take it there  
Trying to make it fair so you fans so I try to bear the pain  
Wretched me try to separate so I guess that's a fair change  
I mean she keep coming at me like me my nigga  
Don't wanna break up but I needed a break from the hoe  
And she ain't a hoe but right now I'm mad so now she a hoe  
My niggas they know  
Every time she get insecure  
She want me to be immature  
How she reacting when I'm on tour  
Like what's mine's ain't yours

But still my girl sending mad thoughts to my phone  
And I ain't picking up cause she don't wanna lower her tone  
And every time she think a nigga be wrong she be on  
And I feed into that zone  
But tonight we blowing on strong nigga leave me alone  
I'm with my brodee bros, brodee bros, brodee bros  
I'm with my brodee bros, brodee bros, brodee bros  
I'm with my brodee bros, brodee bros, brodee bros  
I'm with my brodee bros, brodee bros, brodee bros

She wanna be my baby  
Wanna scoop me up, scoop me up  
On pro tools in my studio, she wanna loop me up, loop me up  
slow your roll now roll this weed  
And yeah I got time but I don't got time when I with my g's  
Is that hard to believe?  
Meaning I rap, I'm killing these niggas  
We aint gotta say we aint feeling these niggas  
You say you can't deal with my g  
Well girl I guess you gon have to deal with these niggas  
Cuz I can't stress it and girl you can't check it  
Cuz either you down or you just around like a necklace  
You be calling me texting me  
You dont know you like an ex to me  
God made you beautiful but what this world do to you  
Your insecurities not securing me  
I'm feeling like I rather be alone if this the way it gotta be  
At night just me and my brodee cuz girl you got me twisted

You be flipping imma need some distance just to be specific  
Call my nigga Dizz like these hoes be tripping  
I got three rolled tell me where we smoking these extensions
