

Keep It 100

Dizzy Wright

Takin' over the game, remember the name (Remember the name, remember the name)
Learned it from niggas that did it before me, you know that I keep it a hundred (One hundred)
We ain't the same, I stayed in my lane (Stayed in my lane, stayed in my lane)
Learned it from niggas that did it before me, you know that I keep it a hundred (One hundred)
You know that I keep it a hundred (One hundred)
You know that I keep it a hundred (One hundred)
You know that I keep it a hundred (One hundred)
You know that I keep it a hundred (One hundred)
Quit playin' yourself, you dealin' with lames (Dealin' with lames, dealin' with lames)
Takin' over the game, remember the name (Remember the name, remember the name)

History helps, no it doesn't
What you tryna tell me? 'Cause I know you buggin'
Learned it from niggas that did it before me
You know that I keep it a hundred (One hundred)
Still movin', I'm runnin'
Just know that I pulled up myself, my system was empty
And now I'm tryna eat and niggas tryna say I'm full of myself
I get it, get out of my circle then (Yeah)
Gotta put on my murder lens (Ah)
Used to focus on world peace
But I ain't been the same since Ferguson
This how I prefer to live
Fragile, don't know how to act now
Growin' up turnt, still puttin' tracks out
In a real way, doin' shows for a packed house
Told the fans last time I was finna lash out
Look at how far we done come
Raising a king and a queen for whatever my son and daughter become
My niggas is kickin' the lean, bar, there gotta be one
I let 'em lie to me once
Flint to Vegas, I don't ever know what side to come
I was excited when niggas started showin' me love
I shout out the city I'm from
Hit that road, gotta get shit done
Takin' advantage, you niggas is stupid, reckless, mindless, diggity dumb
Turn off your music, I ain't feel it none
Y'all ain't talkin' 'bout shit, get money, get off of my dick
That's all that I hear, come up in life, aight
But why do we seem to forget to talk to our peers?
Fuckin' that bitch and it ain't even his
Braggin' about it, you losin' your wig
I see them buildin' a buzz and they fans
Lyin' to y'all about everything they did
I'm all in my bag in the back of the Hills
I ain't have money, out here tryna chill
Hip-hop's soul been losin' its feel
This time I'm back for real

Takin' over the game, remember the name (Remember the name, remember the name)

Learned it from niggas that did it before me, you know that I keep it a hundred
red (One hundred)
We ain't the same, I stayed in my lane (Stayed in my lane, stayed in my lane

ith lames)
Takin' over the game, remember the name (Remember the name, remember the nam
e)

I keep it a hundred like five twenties
Give her good dick, I don't buy her Fendi
Mixin' soda pop inside of my Remy
From the South Park, you could die, Kenny, uh
Bitches be flexin' for likes
Ill nigga for the rest of my life
Plain jane, I don't dress it with ice
Livin' reckless, I was stressin' my wife, ugh
Life'll a kick a nigga in the ass
Tried to write my wrongs with a pen and pad
Tried to leave my demons in the past
Woke up in the morning feelin' bad
Lord, have mercy, give a nigga strength
I threw my nigga somethin', he was in a pinch
I was born to ball, we don't sit the bench
I'm a fuckin' soldier, ho, I'm in the trench
Fuck your border wall, you ain't been to Flint
Babies drinkin' poison, how they benefit?
Tell me how he makin' any sense?
Oh, I get it, you don't give a shit
Need the mozzarella and the goat cheese
I'm like, ho, please, get on both knees
Used to hang niggas from the oak trees
Now I soak the game from the OG's
