

More and More

Dizzy Wright

Honestly I can't believe that you ain't been in one of these
We should do this more, I drop you off soon as you wanna leave
Keep it real, don't front on me
You know just where I wanna be
I just gotta love myself a little more and more

I said, "I just gotta love myself a little more and more" (More and more)
Enjoy your time while you on Earth, dawg (Earth, dawg)
I just gotta love myself a little more and more (More and more)
It's hard to put it into words, y'all (Words, y'all)
I just gotta love myself a little more and more (More and more)
You gon' get what you deserve, dawg (Deserve, dawg)
I just gotta love myself a little more and more (More and more)
I just gotta love myself a little more and more (A little more and more)

Built this from the ground up, some might think it's not much
But this how it all starts out, the goals start gettin' knocked out
Don't get it twisted, in my circle negative energy wasn't allowed
I can't imagine not havin' my little bit of piece of mind, it's so everlastin'
I been thinkin'-thinkin' 'bout it lately
How the time keep switchin' my mind set
See the drive that I got inside, yeah, I been rockin' this shit out for nine years
Incredible, speakin' of organized
But why do I feel so unsatisfied?
Providin' music for the happy lives
Blessed with a culture that never dies
I come in here to be free, gotta get away from what I'm dealin' with
Get away and never wanna leave
Let the music tell me what it really is
It's like tryna make it in the league, you stronger when you got a team
But this is where it goes down, hope you fuckin' with everything you seen
Walked out like

Honestly I can't believe that you ain't been in one of these
We should do this more, I drop you off soon as you wanna leave
Keep it real, don't front on me
You know just where I wanna be
I just gotta love myself a little more and more

Find your self-worth, put yourself first
I've been takin' my time just to soul search
Fact-checkin', doin' homework
Tellin' my truth through the whole verse
They killin' our dreams on the covert
Try leave us right there in the cold dirt
But it won't work, no sir

Everyday I got above ground on Earth, I'ma let 'em know
This is why God blessed me with the flow
I deserve more yeses than a no
I deserve more than less, that's for sure
But you know they test when you progress past where they think you 'sposed to go
But I never let it take a toll
I just let it fuel me for the road

I've been in the studio, up late, every night
Tryna find a way to put some food on my plate
Pull up when you need an escape
'Cause these streets, they ain't safe
Just hit me if you need to get away

Honestly I can't believe that you ain't been in one of these
We should do this more, I drop you off soon as you wanna leave
Keep it real, don't front on me
You know just where I wanna be
I just gotta love myself a little more and more
