

Now or Never

DJ Antoine

Here we are, in the races
In this place, in the ruins
All the world, that they made
Need to change, what we're doing
Because we are young
And baby we're free
And we're ready
We gotta take that leap of faith
Get it straight
You gotta take your chance
And wake up before it's too late

[Chorus]

Hey now, if you're looking for me
Baby I'm right here, we can do forever
Hey now, you wanna break free
Baby come with me,
Cause it's now or never
So I'm not afraid, do it all again
Nothing matters when, we're together
Hey now, you wanna break free
Baby come with me,
Cause it's now, now or never

Now or never, now or never

All we got is right now
Is right here in this moment
Make it count and no doubt
Just believe you are golden
So let's make a toast
Raise your glass
Put your hands up,
Just lift em to the sky
If you're wild, stay untamed
Break the rules and never play the game

[Chorus]

Hey now, if you're looking for me
Baby I'm right here, we can do forever
Hey now, you wanna break free
Baby come with me,
Cause it's now or never
So I'm not afraid, do it all again
Nothing matters when, we're together
Hey now, you wanna break free
Baby come with me,
Cause it's now, now or never
Now or never, now or never.
