

Intuition

DJ Encore

I have come all this way
Time to make a turn
Will I make it right
I'll live and I'll learn
I'm playing my own song now
I will survive a change of key
Because I follow this guideline
Hiding inside of me
I...
Found an answer in my heart that I will follow
It might keep sanity at bay
But I'll be hollow not to give a part of me
I get so much from you
Could this really be a wrong
When it feels right to do
Ooh...
Feels like my past
Is a page I turn
In a book of fate
I lived and I learned
I'm playing my own game now
I'm making rules I won't pretend
When intuition conquers you
You will win in the end
I...
Found an answer in my heart that I will follow
It might keep sanity at bay
But I'll be hollow not to give a part of me
I get so much from you
Could this really be a wrong
When it feels right to do
Easy drifting away on believing
Never give up on a feeling
I...
Found an answer in my heart
I...
Found an answer in my heart
I...
Found an answer in my heart that I will follow
It might keep sanity at bay
But I'll be hollow not to give a part of me
I get so much from you
Could this really be a wrong
When it feels right to do
