So suicidal, first dem ever see this
Gangsta for life, the realist

Every street, every block

Mi a di real thing
From New York to California
To Arizona dem haffi set we free

Show the light just let me know
Light just let me know
You know, hands in the sky if you with me
It's the gullyside life you know
You now... you know...

So suicidal, first dem ever see this
Gangsta for life, the realist
So suicidal, first dem ever see this
Gangsta for life, the realist
