

Beam Me Up

Django Django

We've seen the lightning
Far out at sea
Walk down the beach and teach me

Everything leaves me
Far out of reach
We couldn't see the reason

Nothing sees me
No one can hear me
Somebody beam me up

Return of the old gods
Nothing is new
We have commands that feed us

No way of knowing
What is in view
Nothing's a secret, genius

Nothing sees me
No one can hear me
Somebody beam me up

Beam me up

Drown in the sand there
Down on one knee
Nothing should be this easy

You were like white noise
Pulling at me
If only we'd known we'd blown it

Stand on a knife's edge
Look at the view
Think of the scene or leave it

Show me a clear sky
Cut it in two
Swallow us up and dream it

Nothing sees me
No one can hear me
Somebody beam me up

Beam me up

Beam me up
