

Champagne

Django Django

Tried to fight the feelin'
Gonna let it win
But don't worry, 'cause I don't
Tell me what it brings

Look outside and it's the season
So let's get our drinks to go
Tell me where we're headed and I'll try to run

Champagne
Floating on the Seine
Drift along blow where that we need to go

Please don't wake me, I'm still dreamin'
And I'm not gettin' up to lose
Got an aching head but I'll be better soon

I wanna hear my best dreams
See the birds in the evergreens
Let me take you on a turn 'round the park
Get lost in the dark

Trying to cross it
Out of reach
Try to walk it
Now me

Oh, yeah
All right
Okay
Long times

Shouting words that they're not hearin'
Try to beg and then we plead
Take a chance, his eyes have seen rightness from me

Gotta find that sinking feelin'

And it's gonna drag us down
Put me up on love and then turn it around

I wanna hear my best dreams
See the birds in the evergreens
Let me take you on a turn 'round the park
Get lost in the dark

I wanna hear my best dreams
See the birds in the evergreens
Let me take you on a turn 'round the park
Get lost in the dark

Champagne
Floating on the Seine
Drift along blow where that we need to go

Champagne
Floating down the Seine

Think of all the places that you wanna go

I wanna hear my best dreams
See the birds in the evergreens
Let me take you on a turn 'round the park
Get lost in the dark

I wanna hear my best dreams
See the birds in the evergreens
Let me take you on a turn 'round the park
Get lost in the dark
