

Glowing in the Dark

Django Django

Can't see in front of me
Draw on my memory, ah
My senses taken leave
I need a space to breath, ah

Its starts to emanate
This space between illuminates
Give me a remedy
A hand, a guide, and now we see
The speed of light is leaving
Us behind

Now we're glowing in the dark
Now we're glowing in the dark
Now we're glowing in the dark
Now we're glowing in the dark

I lay awake at night
It's gonna melt my mind, ah
Your eyes will radiate
They're gonna lead the way, ah

Its starts to emanate
This space between illuminates
Give me a remedy
A hand, a guide, and now we see
The speed of light is leaving
Us behind

Now we're glowing in the dark
Now we're glowing in the-
Now we're glowing in the dark
Now we're glowing in the-

Now we're glowing in the dark
Now we're glowing in the dark
Now we're glowing in the dark
Now we're glowing in the dark

Now we're glowing in the dark
Now we're glowing in the dark
Now we're glowing in the dark
Now we're glowing in the dark
