

# Headrush

Django Django

Look the other way  
Say that my idea's right  
Think we know the truth  
Tell me black is white  
Raising your weapon while  
Seeing your brother try

Trying to wash your hands  
But nothing can clean the lies  
You find an easy way  
You still have had enough  
Throw them some beer to fight with  
With you when they pick it up  
Raised on adrenaline  
Blaming the town we're in

Our time is up  
Our time is up  
Our time is up, it's a headrush (headrush)

Watching the smoking fire (I've got a headrush)  
And know that your blood goes past (you want a headrush)  
Keep them behind a while (don't want a headrush)  
She wants to waste his air  
All avenues are closed  
I nest a load to smoke

Your spirit is up  
Your spirit is up  
Your spirit is up, it's a headrush

Take control  
Don't fight the fire with fire  
Bring it on  
Before your flames grow higher

Not looking the other way  
Putting the world to right  
But now that we know the truth  
See everything black and white  
We're holding our hands up high  
Don't bother to try and deny

Your time is up  
Your time is up  
Your time is up, it's a headrush (it's a headrush)

You find a better way (I got a headrush)  
We seem that we've had enough (don't want a headrush)  
Take all the things you part with (I want a headrush)  
We're not gonna pick them up  
All your adrenaline  
Doesn't mean that you're gonna win

The spirit is up  
The spirit is up  
The spirit is up, it's a headrush

The spirit is up  
The spirit is up  
The spirit is up, na, na, na

Take control  
Don't fight the fire with fire  
Bring it on  
Before your flames grow higher  
Take control  
Don't fight the fire with fire  
Bring it on
