

# Shot Down

Django Django

Walk out and don't look back  
There's no love lost  
Don't take me for a fool or  
I'll keep the price that we had split  
The day I'll quit, ways on my mind never leave  
Deceive run short of love, double crossed

Shot down, follow behind to like find you  
Running ahead of me, let down  
Tables are turning, I see you  
Tearing my back and leave

Walk, in silence you were gone  
Now all is lost, you always said that I'll be the one  
To cut you from the back, I should have known  
Seeing that dust where you're from  
My love has gone, it's way too late  
Inside of hand deceive me and steal the fame  
You've taken back the cost most one by one  
And in the game we begun, undone  
Run short of love, double crossed

Shot down, left on the ground but I see you  
Staring right back at me let down  
Tables are turned and I hear you  
Walking away from me

Shot down, follow behind to like find you  
Running ahead of me, let down  
Tables are turning, I see you  
Tearing my back and leave

I follow behind you  
You thought that you crossed me  
I'll never forget it  
You always remind me  
You left me, you bite me  
You took it away from me  
Don't never forget me  
I'll always remember [x2]
