DMA's

More than you'll say, is more than I'll need from you today
And it's gonna be a part of me, to know that I need you now
Take it in vein, gone when I hear you voice again
And it's gonna be a part of you, to know that I need no fear th
at I'm falling clear

Emily Whyte, Emily Whyte
It's more than you'll know, it's more than you'll show
And it's all on me, yeah

More than you've known, more than you've seen before you
It's more than you've seen before

Emily Whyte, Emily Whyte
It's more than you'll know, it's more than you'll show
And it's all on me, yeah
And it's all on me, yeah

You know I need time, you know I've got some
I feel it's moved on, I know I've got hers
Oh you know I've got more
You know I mean love
You know it takes time
