

# Addiction

Doja Cat

It's Doja  
I don't know how to tell you this but  
I got one way, maybe this will work  
You just gotta listen, closely to me  
I need you, me, us  
Addicted, uh

I am addicted, a little  
Under the influence, a little  
And it makes me want to taste, a little  
An itch I just can't scratch, addiction

I got such a pretty body  
Looks prettier when I'm a mess  
And I just like to call him daddy  
'Cause the first one he up and left  
And you can relate to broken girls  
I've been a day without it, I'm proud of myself  
Baby can you break the curse?  
I'm still gonna believe in magic  
You can relate to broken girls  
I've been a day without it, I'm proud of myself  
Baby can you break the curse?  
I'm still gonna believe in magic

I am addicted, a little  
Under the influence, a little  
And it makes me want to taste, a little  
An itch I just can't scratch, addiction

Look  
I'm just a little bit, I'm just a little bit (Oh nana na na na nana)  
I'm just a little bit, I'm just a little bit  
I'm just a little bit, I'm just a little bit (Oh nana na na na nanana)  
I'm just a little bit, I'm just a little bit  
More, just a little bit more, just a little bit (Oh nana na na na nana)  
More, just a little bit more, just a little bit  
More, just a little bit more, just a little bit (Oh nana na na na nanana)  
More, just a little bit more, just a little bit

Yeah, roll another hunnid  
We could get the white girl lit like Madonna  
Bitch, I ain't grim but this shit is bananas  
We could make the whole body drip like a sauna  
Swim like a piranha  
Put M's in my water  
I can't feel my lips, my limbs feel like rubber  
Yeah I came down, but I still need another  
One under the tongue and then a little marijuana  
They on a trees like koala

I am addicted, a little  
Under the influence, a little  
And it makes me want to taste, a little  
An itch I just can't scratch, addiction

Look

I'm just a little bit, I'm just a little bit (Oh nana na na na nana)  
I'm just a little bit, I'm just a little bit  
I'm just a little bit, I'm just a little bit (Oh nana na na na nanana)  
I'm just a little bit, I'm just a little bit  
More, just a little bit more, just a little bit (Oh nana na na na nana)  
More, just a little bit more, just a little bit  
More, just a little bit more, just a little bit (Oh nana na na na nanana)  
More, just a little bit more, just a little bit
