Doja Cat

Can I get to know you babe?  
Can I get to know you babe?  
Show you things, you think you seein' dreams  
But just don't tell your team  
Keep it on the down low, keep-keep it on the down low  
Down low, down low keep it on the down low  
Down low, down low, keep it on the down low  
Down low, keep it on the down low  
Down low, down low, down low

Know we're slow baby, I'll be you're shotty body  
I'll let you do the naughty, make me go, "La-di-dadi"  
Don't tell them secrets, I'll give 'em reasons to keep 'em bae  
But this ain't creeping, nah ah, this is just freakin'  
Papa, see you every weekend, ah ah  
And I'm speakin', you and me can make sure nobody peakin'  
So can I get to know

Can I get to know you babe?  
Show you things, you think you seein' dreams  
But just don't tell your team  
Keep it on the down low, keep-keep it on the down low  
Down low, down low keep it on the down low  
Down low, down low, keep it on the down low  
Down low, keep it on the down low  
Down low, down low, down low

So touch me baby, let's get this party started  
I'll show you how I ride it, let you know I'm 'bout it, 'bout it  
You got me fiendin', a perfect reason for pleasin' babe  
I hear you breathin' in my ear, you got me screamin' babe  
Baby boy I'm tryin' to know ya  
See the shotgun that you hide in ya holster  
We can get down on the ground, little sober  
Do you got time for an hour of Doja?  
So many things that I'm dyin' to show ya  
No pics when I sign for exposure  
Just ridin' over and over and over

Can I get to know you babe?  
Show you things, you think you seein' dreams  
But just don't tell your team  
Keep it on the down low, keep-keep it on the down low  
Down low, down low keep it on the down low  
Down low, down low, keep it on the down low  
Down low, keep it on the down low  
Down low, down low, down low

Just don't say a thing, we'll be safe on the low  
Let them run the bait, Mr. wait, keeps us close  
Just don't say a thing, we'll be safe on the low  
Let them run the bait, Mr. wait, keeps us close

Can I get to know you babe?  
Show you things, you think you seein' dreams  
But just don't tell your team  
Keep it on the down low, keep-keep it on the down low

Down low, down low keep it on the down low  
Down low, down low, keep it on the down low  
Down low, keep it on the down low  
Down low, down low, down low
