

Trail of Fools

Domain

I don't wanna be no soapbox hero
No customized millionaire
Don't wanna spend my life bitchin'
Not with me sir - I just don't care

I don't believe in your religion
I try to do what you don't dare
You'd better practice whatcha preachin'
'Cause I'm behind you - I'm everywhere

Go your own way - face your identity
Kiss a flaming star - just believe in who you are

My life is my addiction - my will is my believe
I will keep on climbin' higher higher higher higher to the stars

I am the only one - (I won't follow)
I can face the sun - my heart stays on fire
I am the only one - (I won't follow)
I won't join no
Trail of fools

I am the eye of the hurricane
I am the eagle in the sky
Don't wanna live my life in vain
Kiss every second rushing by

I am the music - I am the spirit
You're gonna feel in a Summer's night
When there's a dream - c'mon and live it
The time is now - the time is right

Go your own way - face your identity
Kiss a flaming star - just believe in who you are

My life is my addiction - my will is my believe
I will keep on climbin' higher higher higher higher to the stars

I am the only one - (I won't follow)
I can face the sun - my heart stays on fire
I am the only one - (I won't follow)
I won't join no
