

# Young Hearts Can Fly

Domain

When love is young and feelings run free

Nothing to care - to worry about

Nothing to fear is what young love's about

Try to catch the moment - try to believe

Love will last my baby if you only believe - still believe

When you're feeling like you're wild - on the run

When you know for sure she's the only one

Higher than the moon and the sun

In the sky

Young hearts can fly

Your heart is pounding - wild like a drum

Nothing to lose - your time has come

Nothing to fear when you're in love with someone

Try to catch the moment - try to believe

Love will last my baby if you only believe - still believe

When you're feeling like you're wild - on the run

When you know for sure she's the only one

Higher than the moon and the sun

In the sky

Young hearts can fly
