

Greatness

Don Broco

Man on a mission, let me tell you my position
Treat my condition with a full head on collision
It only took you one minute to drop yourself in it
It only took me one minute, one minute to find myself in it testing my limit
Tied up, tied up I gotta get out of here

You're draggin' me, draggin' me, draggin' me, draggin' me, draggin' me down

Give me fucking greatness
Or give me nothing at all
Give me what I came for
Or give me nothing at all
Nothing at all
What a day, what a day, what a day, what a day when you show me love
Cause your Kings and your Queens don't mean nothing to me, no
So just give it to me
All your fucking greatness
Or give me nothing at all

Wanna talk about living
The quotas you're filling
Like you're meant to be made in God's image
But you just gonna mimic

It's draggin' me, draggin' me, draggin' me down

Give me fucking greatness
Or give me nothing at all
Give me what I came for
Or give me nothing at all
Nothing at all
What a day, what a day, what a day, what a day when you show me love
Cause your Kings and your Queens don't mean nothing to me, no
So just give it to me
All your fucking greatness
Or give me nothing at all

Ooh we're reaching the pinnacle
Ooh we're climbing on and on
On and on, on and on
Ooh we're reaching the pinnacle
Ooh we're climbing on and on
On and on
So give it to me
Give me all your greatness

Give me fucking greatness
Or give me nothing at all
Give me what I came for
Or give me nothing at all
Nothing at all
What a day, what a day, what a day, what a day when you show me love
Cause your Kings and your Queens don't mean nothing to me, no
So just give it to me
All your fucking greatness
Or give me nothing at all
