

HALF MAN HALF GOD

Don Broco

I just want to live with my gods
I just want to live with my gods
I don't I think I done nothing wrong

I just want to live with my gods
I just want to live with my gods
I don't want you too fictional
Half man half god

I just want to live with my gods
I just want to live with my gods
I just want to see what you've got
Half man half god

Let me see, let me see, let me see
Let me see, let me see, let me see
I'm lovin'
Family, family, family, family

I thought you'd have learned now
I thought you'd have learned by now
Ain't no way to get to heaven now
So 'til we're gone
I'm giving all of you all my love

Half man half god
Half man half god
Half man half god
I just want to know what you've done

Everything, everything, everything
Everything, everything, everything
All of it
You and me, you and me, you and me, you and me

I thought you'd have learned now
I thought you'd have learned by now
Ain't no way to get to heaven now
So 'til we're gone
I'm giving all of you all my love

I thought you'd have learned
Twisting, all the things on your wish list
God you're feeling so lived in
My business, your business now
'Til we're gone
I'm giving all of you all my love

'Til we're gone
I'm giving all of you all my love
All my love

I just want to live with my gods
I just want to live with my gods
I don't I think I done nothing wrong

I just want to live with my gods

I just want to live with my gods
I don't want you too fictional

Half man half god
Half man half god
Half man half god

I just want to live with my gods
I just want to live with my gods
I just want to see what they've got
Half man half god
Half man half god
Half man half god
Half man half god

I thought you'd have learned now
I thought you'd have learned by now
Ain't no way to get to heaven now
So 'til we're gone
I'm giving all of you all my love

I thought you'd have learned
Twisting, all the things on your wish list
God you're feeling so lived in
My business, your business now
'Til we're gone
I'm giving all of you all my love

We're all looking for some heaven
(Until we're gone)
We're all looking for some heaven
(By now, by now)
We're all looking for some heaven
So 'til we're gone
I'm giving all of you all my love

I just want to live with my gods
I just want to live with my gods
I just want to see what you've got
Half man half god
