## **Do You Think**

## **Don Gibson**

Do you think the raindrops will ever stop falling? Do you think the stars will grow dim?

Do you think my teardrops will ever stop flowing

Till I want your love back again?

I was a fool when I played with your heart And brought you the shame that has torn us apart Do you think I'll ever get over the sorrow For being the fool that I've been

I was a fool when I played with your heart And brought you the shame that has torn us apart Do you think I'll ever get over the sorrow For being the fool that I've been
