

Love Has Come My Way

Don Gibson

Well, it looks how love has finally come my way
At last it looks like love has come way
After all the heartaches I've gone through
They were worth it all for you

Well, I'm a little bit older now, a little bit wiser now
I know you're the one for me, goodbye blues and misery
At last it looks like love has come way
No doubt about it, love has come my way

Paradise with great big eyes of blue
My love has come my way with you

Well, now I'm a little bit older

Yes, love has come my way with you
Mhm, love has come my way with you
