

# Let It Roll

Don Johnson

Whirling like a hurricane screaming down this gate let  
It roll  
Just down the six pack of bud I'm like a loaded gun let  
It roll  
Fighting mad ain't a bad attitude finally get the time  
To put the naughtys thru

Let it roll let it roll don't let it rock you down in  
Your soul  
Let it slide let it ride going on nowhere to the other  
Side let it roll

I got this raging desire like a runaway fire let it  
Roll  
Heading at the moon I gotta do the dance soon let it  
Roll  
Like busting I've nothing to show can't get forth to  
Let my reeling go  
My back to dust I'll make you taking it slow mama are  
We talking over what to know

Let it roll let it roll don't let it rock you down in  
Your soul  
Let it slide let it ride going on nowhere to the other  
Side  
Let it roll let it roll don't you let it rock you down  
In your soul  
Let it slide let it ride going on no no way

Like busting nothing left to show can't get forth to  
Let the reeling go  
Two steps up to find a place in the sun a dancing devil  
Ain't about to scare

Let it roll let it roll don't let it rock you down in  
Your soul  
Let it slide let it ride going on nowhere to the other  
Side  
Let it roll let it roll ooh won't let it rule down in  
Your soul  
Let it slide let it ride I'm over to the other side

Let it roll let it roll let it rock you down in your  
Soul  
Let it slide let it ride I'll be the same on the other  
Side
