

When You Only Loved Me

Don Johnson

When I saw you
Dancin' with a stranger,
To the slowest song I think I ever heard
The way he held you,
You looked so lovely
Swaying cheek to cheek without a word

Used to be
That you only loved me
Here I go again
Rush right in
I can't hide your reflection in my eyes
So if you see me standin' on a corner
And you have to pass
I don't wanna see
Cause I remember
When you only loved me

When I heard you
Laugh like you used to
To some silly thing he whispered in your ear
He spun you round
You threw your head back
And you smiled a smile I hadn't seen years

Used to be
That you only loved me
Here I go again
Rush right in
I can't hide your reflection in my eyes
So if you see me standin' on a corner
And you have to pass
I don't wanna see
Cause I remember
When you only loved me

When the band quit playin' that song slow
And the two of you were the last
to leave the floor
And then you kissed him
And when you kissed him
I'd never seen you kiss like that before
Used to be, that you only loved me
Used to be. . . that you only loved me.
