

Lead Me Through The Night

Don Moen

Lord You are
My refuge and my shelter
In Your presence I will hide
I Will wait for the God of my salvation
He will hear me when I cry

Though I fall
I will rise
High above the storm
Like an eagle I will fly
In the dark
You are my light
Bright and morning star
Come and lead me through the night
O lead me through the night

Lord You are my help in times of trouble
When others leave You will abide (yes, You will)
You're a friend that's closer than a brother
You will never leave my side

Lead me through the night
Lead me through the night
