

Missing You, Missing Me

Don Williams

Love is gone but not forgotten
Memories are very much alive
Life goes on and life goes well
But I wonder if I'll ever lose the pain of missing you

Missing you, it won't let me be
Wishing you were missing me
Missing, you I'll never be free
From missing you, missing me

You were here and then you left me
Well, who's to say where anyone belongs
I know now that I'll get by but I wonder
If I'll ever lose the pain of missing you

Missing you, it won't let me be
Wishing you were missing me
Missing, you I'll never be free
From missing you, missing me
