

# Groove On

Donell Jones

Gotta get my groove on, gonna make a move on  
Girl I got what you need so baby don't be  
Giving me no static when I creeping up the phone  
Let me show you what I made of

Gotta get my groove on, gonna make a move on  
Girl I got what you need so baby don't be  
Giving me no static when I creeping up the phone  
Let me show you what I made of

Don't be afraid girl I'm gonna give you what you want  
Baby there's no need to front  
Gotta know that I'm gonna be the one  
To give you love and whatever you need  
Girl I'm hoping you can see that it's only you for me  
Never know what you can have unless you take it there  
The love that I got girl I can share  
There is no other love who can compare  
Do all the things I have right here in store for you  
So many things to do  
Give me your love and I will make it true

Gotta get my groove on, gonna make a move on  
Girl I got what you need so baby don't be  
Giving me no static when I creeping up the phone  
Let me show you what I made of

Gotta get my groove on, gonna make a move on  
Girl I got what you need so baby don't be  
Giving me no static when I creeping up the phone  
Let me show you what I made of

I wanna show you I can love you totally  
It's not gonna cost you anything but a trip to ecstasy  
I'm all the man but you gotta believe  
That your love for me will grow  
But only time will surely show  
Baby take my hand and let me lead you to your dream  
I will fulfill your fantasy cause I wanna be your everything  
I will make your heart feel like it's brand new  
So many things to do  
Give me your love and I will make it true  
'Cause I know

Gonna do you right, keep you satisfied if you give this love a try  
If you fall in love with me then finally you can see  
Won't do you wrong, my word is bond, gonna love til the break of dawn  
Girl I'll never do your wrong cause you got it going on  
Be a part of me, never thought you need, cause I'm thinking about destiny  
If you want destiny let your mind soon be free  
No need to fear, I'm gonna take you where there is nothing but love to share  
And there is no need to fear cause I got it right here

Gotta get my groove on, gonna make a move on  
Girl I got what you need so baby don't be  
Giving me no static when I creeping up the phone  
Let me show you what I made of
