

Superman

Donell Jones

Baby you know that you take an advantage of me
I think dollar signs is all you see ooohhh lady
And when I'm with you, you always act it's something new
But if I didn't have a dime, would you still want me?
This is something that you gotta know

I been your Superman for too long
You find a good thing when it's gone (when it's gone away)
I been your Superman for too long
(I'm saying it's over now) But it's over now, (saying it's over now) baby it
's over noooooow

Baby you gotta see that you truly blame me
I'm not gonna stand here let this be
Cause love and respect that come for free
I pay bills with ease but you never thought about me
And you never trouble you would call, girl I came here in rescue [?]
You never

You never thought about me
You too busy thinking 'bout you
You couldn't really love me
All you needed is some money

You never thought about me
You too busy thinking 'bout you
You'd never really see
What you coulda meant to me
I been your Superman

I been your Superman for too long (for too long)
You find you had a good thing when it's gone (when it's gone away, yeah, yeah,
h, yeah, yeah yea)
I been your Superman too long
But it's over now, (Baby it's over now) baby it's over noooooow (I'm saying it
's over now)

OOOOOOhhhhhhh yeah
Just for someone to love me every day and night
Every day and night
[?] is a two way street
And you couldn't be there for me

I been your Superman for too long
You find you had a good thing when it's gone
I been your Superman for too long
But it's over now, baby it's over noooooow

I been your Superman for too long
You find you had a good thing when it's gone
I been your Superman for too long
But it's over now, baby it's over noooooow

Now baby, I'm asking, what happen you and me
