

Just for a While

Donkeyboy

We could be fearless just for awhile
We could touch Heaven
Live on forever away from the dark

We could be fearless
Just for awhile

Reaching for the stars
We gotta surrender to who we are
And we don't need just anyone
Don't need anyone

Soaring from afar
In this world of pretenders
You're who you are
You made me feel
I found someone
Finally found someone

We could be fearless just for awhile
We could touch Heaven
Live on forever away from the dark
We could be fearless
Just for awhile

We could be fearless just for awhile
We could touch Heaven
Live on forever away from the dark
We could be fearless
Just for awhile

I look into the past
For battles we fought
Made of what we are
And we can heal
Voices in my heart
Will keep me going
Through the coldest night
Cause I believe that you're the one
I finally found the one

We could be fearless just for awhile
We could touch Heaven
Live on forever away from the dark
We could be fearless
Just for awhile

We could be fearless just for awhile
We could touch Heaven
Live on forever away from the dark
We could be fearless
Just for awhile

We could be fearless just for awhile
We could touch Heaven
Live on forever away from the dark
We could be fearless

Just for awhile

We could be fearless just for awhile
We could touch Heaven
Live on forever away from the dark
We could be fearless
Just for awhile

The battles we fought made of what we are
The battles we fought made of what we are
