

# Sleep In Silence

Donkeyboy

She had been here a thousand times before  
Memories got spilled without shame  
And even though she tried to take the blame  
She's walking away, she's walking away

Sleep in silence, reshape, today  
Sleep in silence, reshape, another way

She had been here a thousand times before  
You're a simple fool without shame  
And even though she tried she feels the same  
She's walking away, she's walking away

Sleep in silence, reshape

She's another's destiny  
I'm trying to break this memory  
Untill her new face changes  
We'll never see her again.

Sleep in silence, reshape

She's dancing, dancing  
It's never gonna be the same

Sleep in silence, reshape

She's dancing, dancing  
She's never coming back again

She had been here a thousand times before  
Memories got spilled without shame  
And even though she tried to take the blame  
She's walking away, she's walking away

Sleep in silence, reshape

She's another's destiny  
I'm trying to break this memory  
Untill her new face changes  
We'll never see her again.

Sleep in silence, reshape

She's dancing, dancing  
It's never gonna be the same

Sleep in silence, reshape

She's dancing, dancing  
She's never coming back again

Sleep in silence, reshape  
She's another's destiny  
She's another's destiny

Sleep in silence, reshape

She's another's destiny  
today

She's another's destiny
