

Don't Cry Baby

Donnie Iris

I thought I told you 'bout a half a million times
Not to worry about tomorrow
'Cause I got everything under control
I'm looking out for you
But you've been waiting and wondering why
I don't always make it home
Lately you've been getting down and out
When you're alone

Don't cry baby
Don't cry now
(Don't you cry no more)
Don't cry baby
'Cause I'll be around now

I'll wipe the tear drops
Right off of your face
Let your smile begin to shine
I wanna see you with that look in your eyes
Like everything's fine

Don't cry baby
Don't cry now
(Don't you cry no more)
Don't cry baby
'Cause I'll be around now

Don't cry baby
Don't cry now
(Don't you cry no more)
Don't cry baby
'Cause I'll be around now
