

# Follow That Car

Donnie Iris

Hey boy they say you want too much  
You better wake  
You better listen 'cause you're  
You're out of touch  
You better shape up

You're drivin' all night  
You're feelin' all right

Out on the street  
And livin' a dream  
Back on the beat  
A part of the scene  
Follow that car  
Cause dreaming is easy  
Reach for your star  
Ya gotta believe

People like you  
Ain't supposed to have dreams  
You better slow down  
So why do you still  
Still believe  
What is the low down?

You're drivin' all night  
You're feelin' all right

Out on the street  
And livin' a dream  
Back on the beat  
A part of the scene  
Follow that car  
Cause dreaming is easy  
Reach for your star  
Ya gotta believe

Don't ever stop believing  
Someday you will see it through  
You got to keep on driving on... yeah  
And you know  
And you know it won't be long

You're drivin' all night  
You're feelin' all right

Out on the street  
And livin' a dream  
Back on the beat  
A part of the scene  
Follow that car  
Cause dreaming is easy  
Reach for your star  
Ya gotta believe

Out on the street  
And livin' a dream

Back on the beat  
A part of the scene  
Follow that car  
Cause dreaming is easy  
Reach for your star  
Ya gotta believe
