

I'm A User

Donnie Iris

I used to be a working man
I rode the bus to the working land
Now I sit at home and I watch TV
My computer does my work for me

I'm a user
But I used to be a working man, ooh-la-la-la
I'm a user
But I used to be a working man

I sent work to the CPU
I wanna run the list I'm programmed to
I go to work 4 to 1310
Debug me fast 'fore I lose my head

I'm a user
But I used to be a working man, ooh-la-la-la
I'm a user
But I used to be a working man

Bits and bytes
And chips and lights
Poke and peek and then delete
Now go sub at 917
Return to program
Clear the screen

I'm a user
But I used to be a working man, ooh-la-la-la
I'm a user
But I used to be a working man
