

# L.O.V.E.

Donnie Iris

You got an L  
You got an O  
V and E  
That spells love  
That's what you need  
L.O.V.E  
Oh the name of the game is love

You got an L  
You got an O  
V and E  
That spells love (That's what you need)  
That's what you need  
L.O.V.E  
Oh the name of the game is love

Looking for some gold  
In a bed of urgent romance  
Dance your urban dance

You got to believe

With an L (You got an L)  
And an O (You got an O)  
V and E  
That spells love (That's what you need)  
That's what you need  
L.O.V.E  
Oh the name of the game is love

Little painted soul  
In a naked city  
Looking for some gold  
In a bed of urgent romance  
Dance your urban dance

With an L (You got an L)  
And an O (You got an O)  
V and E  
That spells love (That's what you need)  
That's what you need  
L.O.V.E  
Oh the name of the game is love

For the painted face  
You can't wash with pity  
Money for a taste  
A reward for earnest romance  
Still we both take our chances

We'll be dancing in the streets

With an L (You got an L)  
And an O (You got an O)  
V and E  
That spells love (That's what you need)  
L.O.V.E

Oh the name of the game is love

You got an L

You got an O

V and E

That spells love (That's what you need)

That's what you need

L.O.V.E

Oh the name of the game is love
