

Love Is Magic

Donnie Iris

I want you
Let me love you now
I need you
Let me take you down
Tomorrow
When we're far apart
I'll miss you
You'll be in my heart

Tonight though
I'm holding you
I want you to show me

Love is magic
I just have to look in your eyes
You've got me spellbound tonight
Love is magic
Believe and you won't be afraid
Love's just a heartbeat away

Surrender
While the time is right
Remember
What we say tonight
Together
We can make it last
Forever
Girl you know we have
The power
Are we in its spell
I want you to tell me

Love is magic
I just have to look in your eyes
You've got me spellbound tonight
Love is magic
Believin' you won't be afraid
Love's just a heartbeat away

Open your heart
Make me a part of you

Baby don't fear
Love when its nearing you

Loneliness can be so tragic
Let me show you
