## **Hey Girl**

## **Donny Hathaway**

Hey girl
I've been watching you
The rapid beat of my heart
Means I'm falling in love with you

Why did you smile at me
Make me feel this way
Hey, girl
There's something I'd like to say

Girl, you're the stars in the sky that shine just for me Girl, you're the sun & the moon & the deep blue sea Cool breezes blow, open your heart & let me know Got to know how you really feel Got to know if your love is for real (Like) baby buggies & spinning wheels We're together now, oh what a thrill Flowers that bloom & birds that sing Come on baby, let's do our thing, yeah

Softly I tell you that I love you & it's your man I truly want to be Hey, make up your mind Girl we ain't got much time Hey girl
We ain't got a lot of time

Don't you know we ain't got much time
