

This Time

Donny Osmond

This time we're really breaking up
This time we said way too much
This time's for all time
How about this time?

This time there'll
Be no goodnight kiss
This time's forever
This time, I find that
I'm really losing you

My heart is broken now
It really doesn't matter anyhow
Now that you've gone away
I only live from day to day

This time there'll be
No goodnight kiss
This time's forever
This time I find that
I'm really losing you

My heart is broken now
It really doesn't matter anyhow
Now that you've gone away
I only live from day to day

This time, we're really breaking up
This time we said way too much
This time I find that I'm really losing you

This time there'll
Be no goodnight kiss
This time's forever
This time I find that
I'm really losing you
