Donots

words don't come too easy
sometimes i'm scared of you
so here i sit and wonder
what it takes to talk to you
cause i'm fucked up
and you're fucked up
in a fucked up situation
you're frozen
and i'm broken
can't we just start anew?
tell me what to do
can't we start anew?
words don't come too easy
sometimes i wish they would
please help me kill the silence
before it kills us two
