

Forever Ends Today

Donots

I gotta go
Cause what goes around, doesn't come around
And I know
The time is never now
I told you so
It's a long way to the top, it's a long way down
So what now?
We feel a lot more lost than found
Too much, too late to lie and hesitate
Nowhere to go, forever ends today
Don't know what we got until it's gone away
We're the last to know, forever ends today
Forever ends today
I gotta go
Cause we never read the writing on the wall
Yeah I know
Everytime I slip, you fall
I told you so
It's mathematics, it's not chemistry
So right now
The numbers kill you and me
Too much, too late to lie and hesitate
Nowhere to go, forever ends today
Don't know what we got until it's gone away
We're the last to know, forever ends today
Forever ends today
Forever ends today
Forever ends today
I gotta go, I gotta go, I gotta go, I gotta go (Forever ends to day)
I gotta go, I gotta go, I gotta go, I gotta go
Too much, too late to lie and hesitate (I gotta go, I gotta go)

Nowhere to go, forever ends today
Don't know what we got until it's gone away (I gotta go, I gott a go)
We're the last to know, forever ends today
Forever ends today
