

# Make Believe

Donots

Find a name  
Make it stick  
While we're chasing the exit  
Be everything we cannot be  
Don't take no blame  
Throw the brick  
Gonna dig out the hatchet  
We gotta make new enemies  
Because  
We're outta sight  
We're outta mind  
We're make believe and  
We're all out of hate  
We live a lie  
We can't just let it die  
We're make believe  
We're make believe  
Against the grain  
Only for the sake of it  
We'll stop the gears of  
This machine, this machine  
Find a name  
Make it stick  
Make believe, don't take no hostages  
While we're running for the exit  
(We're gonna find ourselves)  
Because  
We're outta sight  
We're outta mind  
We're make believe and  
We're all out of angst  
We live a lie  
We can't just let it die  
We're make believe  
We're make believe  
Just make believe  
We're make believe  
We're make believe  
We beg to indiffer  
We are nothing new  
Gotta make new enemies  
Like me and you  
We beg to indiffer  
We are nothing new  
Gotta make new enemies  
Like me and you  
We're make believe  
We're make believe  
Just make believe
