

You Got It

Donots

Nothing destroys like destruction
Just put me to the rest
C'mon, let me be my best
I feel like pushing mountains
I feel like eating glass
C'mon, let me make a mess

You got it
You got it
You got it...

You gotta stay up with me
Sing out of key
Pissing the night away
If I don't sleep
Nobody sleeps
Bring on the light of day

You got it

Nothing destroys like destruction
and my demons never rest
C'mon, I save the worst for last

You got it
You got it
You got it...

You gotta stay up with me
Sing out of key
Pissing the night away
If I don't sleep
Nobody sleeps
Bring on the light of day
