

You're So Yesterday

Donots

Now i don't wanna remember
But it's like i can't forget
my heart is here, my mind is now
I made it out alive somehow
Well, you still look like November
and i keep the hole in my head
i'm half the man, you're twice as grey
but i sing my life away
and you're so yesterday
Said i don't wanna remember
but it's like i can't forget
Your heart's still here ,you're out
of town
you made it out of love somehow
But i'm beyond forever
and you still chew on the past
Tomorrow's near, the future's now
three strikes, you're so yesterday
You're so wrong and
you're so yesterday
You're gone and
you're so yesterday
